

Health Planning Council Deliverable 1: Behavioral Health Service Maps Update

- Clinical Stabilization and Support Services
 - Transitional Support Services
 - Clubhouse
 - Recovery Learning Communities
-
- These maps supplement those provided in Deliverable 1. Taken together they include all the programs and services that can be reliably provided by location based on licensing information. Certain services have been excluded because location data would violate privacy rules.
 - The data represent the best available information.
 - Our effort will now move toward documenting the service providers and inventory (beds and other capacity measures) purchased with state, Medicaid, Medicare and commercial funds.

Service Map: Clinical Stabilization Services (CSS)

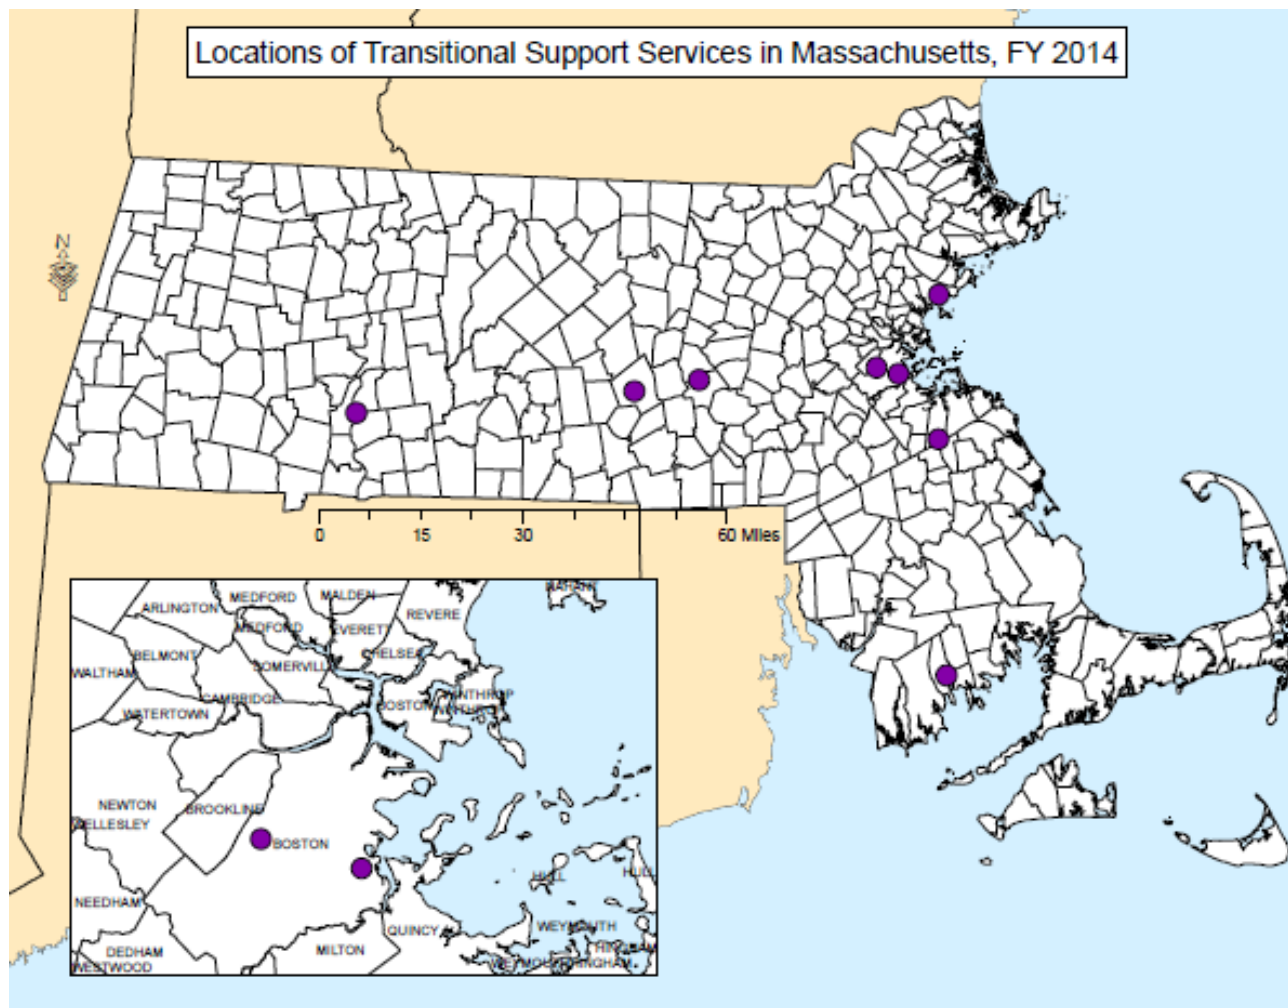

Clinical Stabilization Services (CSS)

- CSS offer 24-hour treatment, usually following Acute Treatment Services (ATS) for substance abuse. Typically clients stay in the program for 10-14 days, during which they receive a range of services including nursing, intensive education and counseling regarding the nature of the addiction and its consequences, relapse prevention and aftercare planning for individuals beginning to engage in recovery from addiction
- These programs provide multidisciplinary treatment interventions and emphasize individual, group and family. Linkage to aftercare, relapse prevention services, and self-help groups, such as AA and NA, are integrated into treatment and discharge planning.
- This service is not intended as a step-down service from a psychiatric hospitalization level of care or psychiatric stabilization service. It is intended for individuals with a primary substance use disorder
- This service is covered by some insurance plans including MassHealth. As payer of last resort BSAS pays for uninsured clients.
- Clients are generally accepted from many settings including Acute Treatment Services (detoxification) programs, residential rehabilitation programs, outpatient including opioid treatment services, as well as self-referral. All CSS clients must meet an ASAM Level 3.5 criteria.

Service Map: Transitional Support Services (TSS)

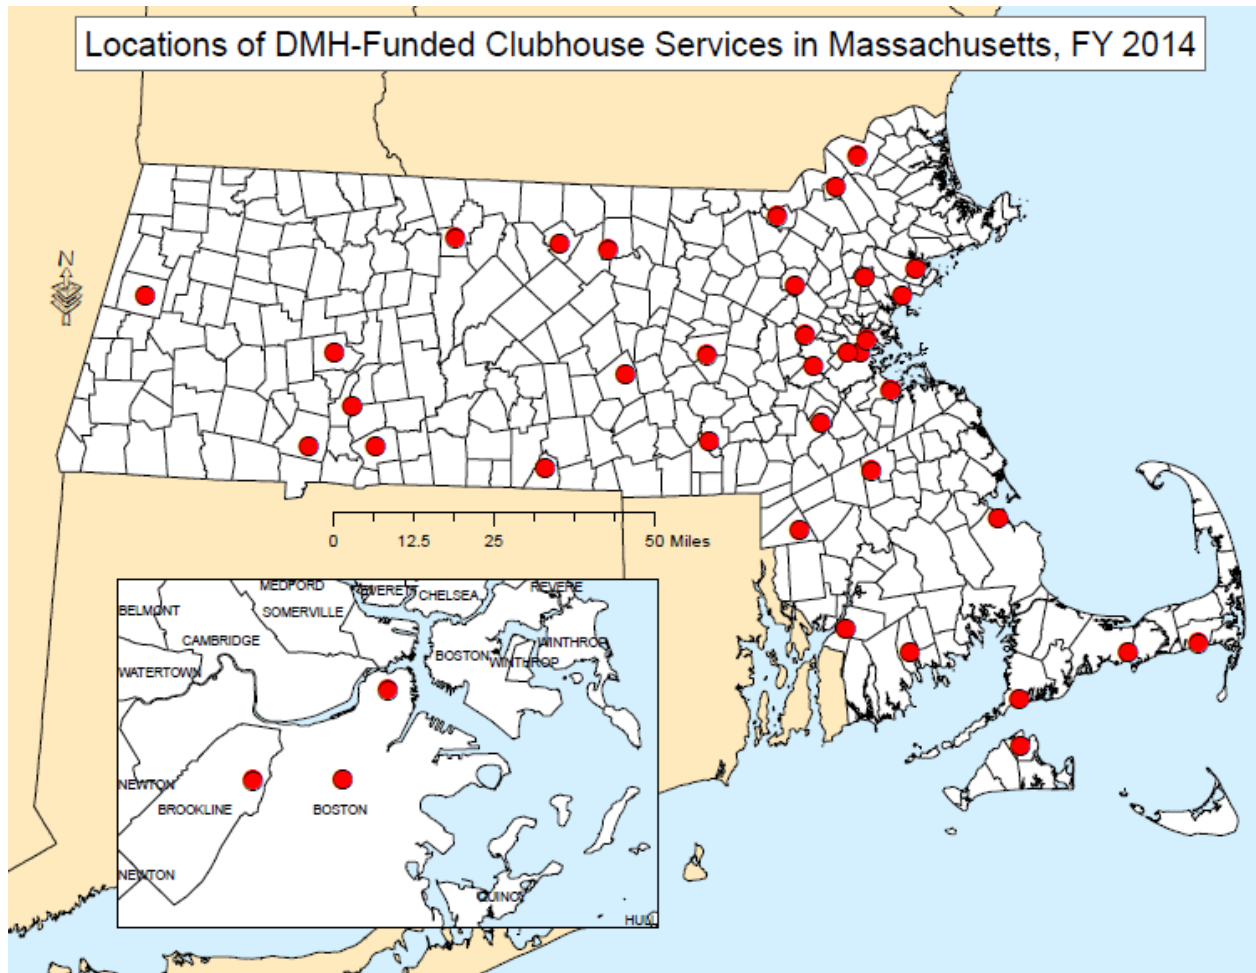

Transitional Support Services (TSS)

- TSS are defined as 24-hour short-term residential treatment up to 30 days, providing nursing, case management, psycho-educational programming, and aftercare planning.
- Services are provided to primarily bridge the gap between Acute Treatment Services and residential rehabilitation. Programs provide intensive case management in order to prepare clients for long-term residential care
- TSS clients are accepted from BSAS funded Level 3.7 Acute Treatment Services program or Level 3.5 Clinical Stabilization Services program. Upon medical clearance, clients can also be accepted from a public homeless shelter.
- BSAS is the primary payer for TSS services.

Service Map: DMH-Funded Clubhouse Services

DMH-Funded Clubhouse Services

- Clubhouse Services, a psychosocial rehabilitation service, provide supports through a membership-based community center. Clubhouse Services assist people served to recognize their strengths, develop goals, and enhance the necessary skills for living, working, learning, and fully participating in their communities. The Clubhouse offers a daily schedule of activities, and works with people to connect them with jobs, school, interests and social activities within their own community.
- Each dot represents one of the 35 Clubhouse locations.
- Clubhouse services are available to people with a serious and long-term mental illness.

- The RLC provides a wide range of peer-to-peer support and resources to individuals with serious mental illness. Further, RLCs support the peer providers through training, continuing education, and consultation. Additionally, RLCs link with other peer-operated services and supports
- Supports may be offered in a variety of settings including, but not limited to the RLC site. Other settings include community mental health centers, inpatient hospitals, generic community settings, town hall, fairs, shopping mall, etc.
- Each dot represents one of 24 RLC network locations.
- RLCs are open to anyone seeking support
